

# STROKE

If you act **FAST**, treatment is possible. Timing is key. The faster you act, the less likely disability or death will occur.

**F**ace looks uneven

Ask them to smile.  
Does one side of the face droop?

**A**rm hanging down

Ask them to raise both arms.  
Does one arm drift downward?

**S**peech slurred

Ask them to repeat a phrase.  
Does the speech sound odd?

**T**ime is vital

If any of these signs are present, call emergency services right away.
